

DRISH INFOTECH LIMITED

ISO 9001:2008 Certified Company

Drish Industrial Training Program

Drish Infotech's industrial training program is an optimum solution for students who wish to undertake their Industrial Training with an IT company. We are offering one of the best working environments to the students with Technical assistance from our software Professionals. A team of 2-3 students will be assigned to work on our Real Projects which will enhance their team spirit, planning and project management in a group, efficiency and employability.

About Drish Infotech Limited

Drish Infotech Limited (Drish) an ISO 9001:2008 accredited Microsoft Gold Certified Partner was established in the year 1999 in Chandigarh as a 100% Export Oriented Unit registered under Software Technology Park of India (STPI), Mohali, Punjab India.

The Group's principal activity is to provide globally focused outsourced IT solutions and to be a service provider that delivers affordable business and technology solutions through global software development and outsourcing. Our comprehensive portfolio of software services has grown a focus on Business Applications, Web Solutions, E-Commerce Solutions, Mobile Phone Apps and our client engagements include small, medium and large companies and also to governmental entities and not-for-profit organizations.

Drish Provides end-to-end business solutions that leverage technology. We provide solutions for a dynamic environment where business and technology strategies converge. Our approach focuses on new ways of business combining IT innovation and adoption while also leveraging an organization's current IT assets.

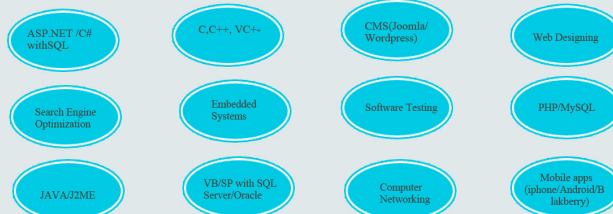

We are a total solution company providing solutions/services in the following areas using latest technology platform.

- | | |
|-------------------------|---------------------|
| 1. Software Development | 5. SMS Applications |
| 2. Website Development | 6. IVR Solutions |

| 4. ERP Solutions | |

The Industrial Training Program

Keeping in view the growing demand for suitably good IT professionals Drish has expanded and formalized its Industrial Training Program so the students can have hands on experience on the current technology and the Industry gets better professional. Each trainee is assigned a Professional from our team who work with them as a mentor. During the Training period students are going guided by their mentor to complete the assigned Real Project in a Live Environment. Throughout the program, each student apart from technical competence, is being observed carefully on various parameters like teamwork, discipline, behaviour, communication etc. The performance of the students is judged through the Seminars delivered by them.

We offer project training in the following areas:

Main Features of Drish Industrial Training Program

- | | |
|--|--|
| 1. Training need assessment for every candidate | 6. Certificates at the end of Course Completion |
